Meeting ID: 976 2478 4101

Meeting called to order  
Approval of Feb 15, 2021 minutes

Old Business:

- Update on status of items currently before the Council or that have been passed by the Council

New Business

- Proposal to move from council members elected from 5 Wards to 3 Wards and two, at-large. I have attached a draft proposal to begin (again) the discussion changing the current electoral process. I do this, not a chair, but as a member of the committee. The present system limits to a great extent the pool from which to draw candidates who have the time and energy to take on the great challenge of governing our community. We have seen considerable turnover in the Council simply because of the workload and the time commitment. This year we have been blessed by the election of four members who have that time and energy. But we may not be lucky in the future. We need to ensure that the pool of candidates is large enough well into the future. And, as was pointed out we need to do it this year as we redraw the wards.

Other business:
