Subject: Backflow Preventer Testing

Dear Ogden Dunes Residents:

Each year we are required by the Indiana Department of Environmental Management to insure all backflow prevention devices in Town have a certified inspection conducted to protect the integrity of our drinking water transmission system.

If you have had your backflow device inspected in the past, please continue as you have previously. If you are unsure if you have or need a backflow device, please call our office. Please go to the town website, navigate to the Water section, and choose from among the listed Backflow Prevention Device testers. If you prefer not to use the website, a list of approved/licensed Backflow Preventer testers and their phone numbers is below in this letter. Please do not utilize a tester who is not on the list, as the results of their test will not be recognized, resulting in you having to pay twice for the same service.

The test results are sent to us by your tester. Make sure you keep a copy for your records.

Please do not neglect this task. Failure to comply with this IDEM mandate by July 15, 2018, could result in loss of water service to your residence.

## Backflow Prevention Device Testers

|  |              |
|--|--------------|
| Affordable Backflow/Instant Irrigation | 219-840-2221 |
| Area Plumbing/Backflow                 | 219-845-1411 |
| Danko Irrigation/Backflow              | 219-924-1224 |
| Down To Earth Irrigation/Backflow      | 219-778-4643 |
| Downing Plumbing/Backflow              | 219-472-1069 |
| Nutri-Lawn Irrigation/Backflow         | 219-926-7005 |
| Ricci's (dba RLM) Landscape/Backflow   | 219-996-2682 |
| Safe-Flow Plumbing/Backflow            | 219-464-9942 |

If you speak with any contractors about backflow testing other than those listed above, please check with the Town Hall to insure they are licensed to work in Ogden Dunes. If a contractor says his company has the necessary IDEM documents to perform Backflow Prevention Device testing but does not have an Ogden Dunes contractor license, that company's inspection will not satisfy the Ogden Dunes Water Works requirements.

If you have any questions, please contact the Water Works at 219-762-2441 or at [water.works@ogdendunes.in.gov](mailto:water.works@ogdendunes.in.gov).

Best Regards,

Mike Teeling  
WaterWorks Coordinator
